Maintenance Notes & Updates

During the last resident council, there was discussion on keeping the breezeways clear. I would like to double down on that. It is also important for all residents to know that any changes to the exterior of the facility need to have prior approval via modification request before any work can be started. Things like adding pavers outside the patio and/or a paver walkway from the patio door to your car are not allowed. You will have to remove them at cost for any work not approved.

Updates:

V6 Pool Decking – Cox Pools tells me the decking should be completed early in October. We will have to close the pool for those days.

V4 Roof Replacement – We are still trying to narrow down an exact timeframe for the project to begin. V4 Residents will receive updates as I do.

There are several ways to get your request in. For emergency work, please call maintenance at 651-8562 or after-hours and weekends please contact AFEV Security. They will in-turn contact our standby person. For routine work or honey do requests, please submit via the maintenance request in the boxes, Touchtown, or Maintenance Care.
