## Maintenance Notes & Updates

What a wonderful time of the year! It's not too hot and not too cold, at least during the day. For some of the residents, nights are getting cold. With that said, when/if you turn the heat on for the first time this year you may have a burning smell. That is dust that has accumulated over the year getting burned off. In addition, if you need any assistance getting your thermostat dialed in correctly, please call maintenance.

Project Updates: Village 4 Roof Replacement will start on November 1, 2022 at Wing 401. I will have cones out in parking spaces. If there is a cone in a parking space, please **do not** move it. That means **do not** park there.

As always, if you have an emergency or urgent request call maintenance right away, if at night contact the security guards, and they will relay to our standby guy. Any routine work please put in the work request box, TouchTown, or Maintenance Care at your corresponding village.
